(*) Tubular stand to be ordered separately

Tubular stand (not included)

Adaptors for elevated installation come without handle and cable gland. The inlet for the cables is from below, at the point where the adaptor is fastened to the stand.

3-way and 4-way adaptors with protective device

- Zinc-plated steel carrying handles.
- PG21 cable gland and cable clamp.
- 2 m of H07RN-F rubber cable.
- EUREKA plugs and socket outlets for industrial applications with IMO approval.
